Dear City of South Haven Resident,

The South Haven City Council has elected to upgrade your recycling service from the current service using 18 gallon recycle bins to our new 96 gallon lidded recycling containers! The lidded containers will eliminate the effects of wind, rain and snow upon your recycling materials and will allow you to wheel your recycling cart to the curb rather than making repeated trips with the old bins. The larger containers will allow us to collect your recycling material **once every two weeks** instead of the current once every week. The containers have yellow lids for ease in separating your trash from your recycling, and will enable us to employ a "single-stream" recycling service for your community.

Single-stream recycling means all of your recycling material, such as paper, plastic and metals can be combined in the new recycling cart and the material will be separated at the processing facility. Please see the decal on the lid on your new recycling cart for a list of the material that is acceptable for recycling. Please do not place yard waste or nonrecyclable materials in your recycling container.

We have included a recycling calendar with your recycling days marked with an X for the remainder of 2011 and all of 2012.

If you have any questions regarding this change, please feel free to call one of our Customer Service Representatives at 800 677-1083, and we will be happy to answer any questions you may have. As always, we at Reliable Disposal are looking forward to serving all your waste removal needs quickly, efficiently and Reliably!

Sincerely,

Reliable Disposal
